SUMMARY: Follow-up letter from Senator Hawkins dated 5 October (prev. letter 8 Feb 84) to determine on behalf of subject family whether they can claim insurance money on behalf of

I called Maria De La Milera last week to give a status report and apologize for the lateness in our sending a reply. I explained since this was a very old matter, we must search many old files to make any kind of determination whether there is in fact a basis for claiming insurance money. I said I expected the search would be completed shortly and that we would then respond. I wanted to assure her that we had not overlooked this letter from the Senator as had been done on the first inquiry.

Maria said she was satisfied we are doing everything we can and also that she is not concerned with our late response...no problem.
